

# BETTER CONTENT CATALOGING CAN DRIVE ACQUISITION AND RETENTION OF SUBSCRIBERS

## Timeframe for the Research: Q2 2021

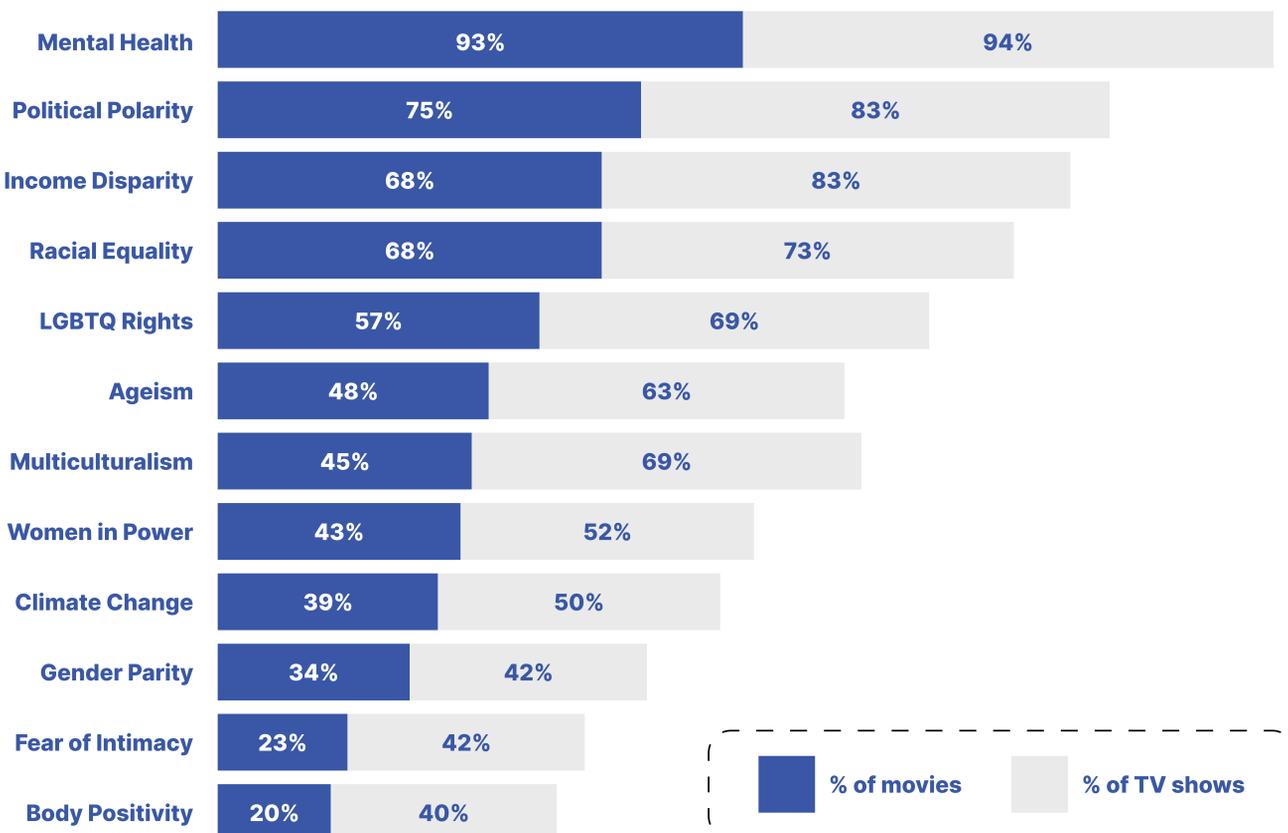

We obtained top performing Movies/TV Shows (Total of 44 Movies and 48 Shows) from IMDb and Rotten Tomatoes and **mapped it to broad social themes** discussed during our period of research. By doing so, we identified new ways of cataloguing the content (**using external data**) in SVOD platforms thereby enabling easier content discovery and sharper recommendations to subscribers

## OUR FINDINGS

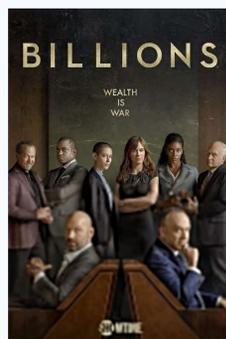

### We mapped the Movies/Shows to broad social themes

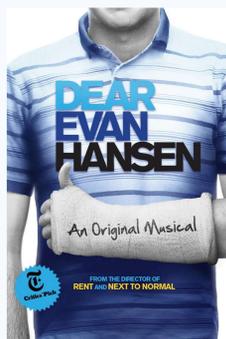

### Distribution of Movies/Shows across Themes

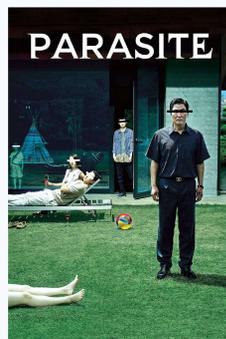

### Top Movies/Shows on Political Polarity

### Top Movies/Shows on Mental Health

### Top Movies/Shows on Income Disparity

## Solution Design/Process Followed
